## Is Your Body Acidic?

The foundation of healthy pH balance is drinking plenty of alkaline water. The easiest way to "supercharge" the alkalinity of your water is by drinking X20 every day!

Unfortunately, most of the foods and beverages we consume on a daily basis cause our bodies to become acidic. And the more acidic we are, the more likely we are to store fat and experience poor health. But, with just one sachet of X20, you can transform your water into a highly alkaline beverage that helps to neutralize acid in your body and trigger the release of excess fat and improve your overall health.

*"You can trace every sickness, every disease and every ailment to a mineral deficiency."*

– Dr. Linus Pauling  
Two-time Nobel Prize Winner

*"The cells of a healthy body are alkaline while the cells of a diseased body are acidic."*

# The MetaboWize™ System

## Melt Away Body Fat 24 Hours a Day!

### MetaboWize™ AM Formula (60 capsules)

The MetaboWize™ AM Formula is a proprietary morning and/or mid afternoon metabolic, thyroid and mood support system that helps stimulate your metabolism by working to elevate the brain chemical norepinephrine, the natural “feel good/fat loss” chemical and by optimizing the body’s methylation process. The body is then encouraged to burn more fat and create more energy. By supporting optimal thyroid function and reducing food cravings, a healthy metabolism and increased fat reduction are ensured.

### MetaboWize™ PM Formula (60 capsules)

The MetaboWize™ PM Formula controls cortisol which is often associated with a dysfunctional metabolism, poor health and obesity. It also contains nutrients that help to boost levels of the feel-good brain chemical serotonin, which is necessary for effective relaxation, deep sleep, craving control and fat loss. The MetaboWize PM Formula will help maintain an optimal metabolic rate, help reduce excess stress hormones, help support a healthy sleep cycle and help repair, renew and reactivate muscle cells to optimize metabolic function.

### MetaboWize™ Nature's Body Cleanse (60 Capsules)

Toxin accumulation caused by slow bowel transit time can lead to a reduction in overall health and well-being. Nature's Body Cleanse increases the consumption of dietary fiber, which helps decrease bowel transit time by gently cleansing the intestinal tract. Nature's Body Cleanse enhances bowel ecology, regularity, and promotes optimal nutrient absorption. Regular digestive system cleansing also promotes fast and effective weight loss.

## LifeSource contains the following 4 longevity factors, each of which is briefly described below:

**Alpha Lipoic acid** is a naturally occurring and essential cofactor in energy metabolism that also acts as one of the bodies most powerful antioxidants. Lipoic acid has been shown to help prevent both vitamin C and vitamin E deficiency as it helps keep water soluble and fat soluble antioxidants active over extended periods. Research also shows that lipoic acid may be a strong inhibitor of energy loss through aging, as it helps protect the bodies premiere energy factories - mitochondria - from decay.\*

**Lutein** is a naturally occurring carotenoid (one of 600) which is found in green leafy vegetables like spinach and kale. Lutein is a very powerful antioxidant where eye health is concerned. Several studies indicate that the higher the lutein concentration in the macula, the lower the risk for age related eye disease such as Macular Degeneration (AMD).

**Resveratrol** is one of the most powerful antioxidants produced by the plant kingdom - found especially in grapes and red wine. It has been shown in studies to exert powerful positive effects on the heart and blood vessels by inhibiting the narrowing of arteries, keeping blood cells from sticking together. Harvard researchers have also discovered that Resveratrol has the ability to activate a "longevity gene," which could possibly extend life span."

**DMAE** (Dimethylaminoethanol) is a biochemical precursor to the neurotransmitter involved in memory - acetylcholine. DMAE is often referred to as the main "brain food" associated with fish consumption, as it is naturally occurring in fishes like sardines and anchovies. Studies have indicated that DMAE (in smaller dosages, as found in LifeSource) may be able to enhance brain function and overall mood. DMAE has also been shown to increase the lifespan of animals.\*

**FACT:** The most expensive multivitamin you'll ever take is the one that doesn't work.

# Proven Health Benefits

## Noticeable Results with Very First Bottle!

# Repair and restore your gut

Over the past decade, considerable evidence from both animal and human studies has shown a clear link between the imbalance of the gut microbiome and chronic diseases, including inflammatory autoimmune disorders, gut inflammation-related disorders, and cardiometabolic diseases. Sadly, our modern-day food supply contains far too many artificial or chemically altered ingredients that can damage the healthy balance required in our gut for optimal health. Hormone and antibiotic treated meats, genetically modified organisms (GMOs), pesticides and plant altering chemicals like glyphosate in modern farming are all contributing to major disruptions in our microbiome and creating chaos in our gut.
